Panskura Banamali College (Autonomous)

B.Sc.(H)4th Semester Examination , 2022

Subject : BCA **Paper: CC8P**

Paper Name :System ProgrammingLab

F.M. : 20 **Time : 2 Hours**

Instruction

[Make your answer script into PDF and MP3 file format and file name as like candidate_id-paper_code.pdf .For Example – candidate_id: 2020UG009967, paper_code : CC8P , then file name will be :: 2020UG009967- CC8P.pdf for question 'A' and 2020UG009967- CC8P.mp3 for question 'B']

A. Answer any one question: 1x12=12

1. Write an assembly language program to add two 8 bit numbers stored at address 2060 and address 2051 in 8085 microprocessor. The starting address of the program is taken as 2000.
2. Write an assembly language program to swap two 8-bit numbers stored in 8085 microprocessor.
3. Write an assembly language program in 8085 microprocessor to perform **AND** operation between lower and higher order nibble of 8 bit number.
4. Write an assembly language program to add two 16 bit numbers by using: 16 bit operation
5. Write a program to find 1's and 2's complement of 8-bit number where starting address is **2000** and the number is stored at **3000** memory address and store result into **3001** and **3002** memory address.
6. Write an assembly language program in 8085 microprocessor to divide two 16 bit numbers.
7. Write an assembly language program in 8085 microprocessor to add two 16 bit numbers.
8. Write an assembly language program in 8085 microprocessor to add two 8 bit numbers.

B. Answeranyfourquestions: 4x2=8

[ONLINE Viva-Voce : Record the audio of your answers as like .mp3 format]

1. What is the microprocessor?
2. Which of the following system software resides in main memory always ?
3. Which of the following type of software should be used if you need to create, edit and print document ?
4. What is bootstraping?
5. Which of the following can be used as a criterion for classification of data structures used in language processing?
6. Which of the following program is not a utility?
7. Which of the following is not a function of the operating system?
8. What is primary memory in Computer ?
9. What is the number of clock cycles necessary to complete 1 fetch cycle in 8085 ?
10. Explain briefly the trap input for 8085?

***
