Panskura Banamali College (Autonomous)

B.Sc.(H) 6th Semester Examination -2022 (Online Mode)

Subject : BCA **Paper code:-DSE3T**

Paper name: Advance Database Management Systems

Full marks: 40 **Time: 3 hrs**

Answer any four questions : **4×10=40**

1. a) Explain about 4NF with example.
b) What is data integrity? Describe different types of integrity constraint.

5+5

2. a) What are the advantages of normalised relation over the un-normalised relations?
b) Write a short notes on: 5+5
I. Serializability
II. Recoverability

3. a) Explain about Live Lock with example.
b) What do you understand by distributed databases? Give the various advantages and disadvantages of distributed database management system.

5+5

4. a) What is object oriented database and why is it important?
b) What do you understand by timestamp based protocol?

5+5

5. a) Define Specialization and aggregation with the help of an example and explain Its purpose.
b) Differentiate among candidate key, primary key, super key and foreign key.

5+5

6. Explain the following terms in the context of DBMS : (4×2.5)=10
(a) Check point
(b) DML compiler
(c) Embedded SQL
(d) Database lock
