Panskura Banamali College (Autonomous)

M.Sc. 3rd Semester Examination -2022 (Online Mode)

Subject : Computer Science Paper: COS-302

Paper Name:M2- Image Processing

F.M.: 20 Time :1 Hour

---

1. Answer any one questions **1×04=4**

a) Define digital image processing? What is Pixel neighbourhood ? 2+2=4

b)Explain Bit plane slicing for gray level image. 4

2 .Answer any two questions **2×08=16**

a) what are the differences between sampling and quantization? What are the differences between image enhancement and image restoration ?Define Object connectivity. 4+2+2

b) Explain fundamental steps in digital image processing. What is thresholding ? 6+2=8

c) Explain the morphological operation to extract the boundary of object for binary image. 8
