Panskura Banamali College (Autonomous)

B.Sc.(H) 2nd Semester Examination , 2022

Subject : Computer Science **Paper: CC3P**

Paper Name : Programming in Java (Practical)

F.M. : 20 **Time : 2 Hours**

A. Answer any one questions: **1 x12 = 12**

1) Write a program to demonstrate the concept of polymorphism in JAVA.
2) Write a program to find multiplication table of a user given number.
3) Write a program to find factorial of given number.
4) Write a program to show the uses of constructor.
5) Write a program to demonstrate how single inheritance can be implemented using JAVA.
6) Write a program to sort a list of numbers using bubble sort technique.
7) Write a program in JAVA which shows an example of package.
8) Write a program to print up to n^{th} Fibonacci number, where n should be taken from user.

B. `Answer any *four* questions: **4 x2 = 8**

[ONLINE Viva-Voce : Record the audio of your answers as like .mp3 format]

1. What is *this* keyword in Java?
2. What is single inheritance?
3. What is a Map in Java?
4. Why **Java** is platform independent?
5. Why **Java** is not fully Object-oriented?
6. What is the difference between *equals()* and == in Java?
7. What are the differences between Heap and Stack Memory in Java?
8. What are different access modifiers in Java?
9. What is Class and Object?
10. Differentiate between String, String Builder, and String Buffer class.
