Panskura Banamali College (Autonomous)

B.Sc.(H) 3rd Semester Examination 2022 (Online mode)

Subject : Computer Science Paper: CC6P

Paper Name : Operating Systems Lab

F.M. : 20 Time : 2 Hours

Instruction

[Make your answer script into PDF and MP3 file format and file name as like candidate_id-paper_code.pdf . For Example – candidate_id: 2021UG009967, paper_code : CC1P , then file name will be :: 2021UG009967- CC1P.pdf for question 'A' and 2021UG009967- CC1P.mp3 for question 'B']

A. Answer any one question: 1 x12 = 12

1. Write a C/C++ program to copy files using system calls.
2. Write a C/C++ program to implement FCFS scheduling algorithm.
3. Write a C/C++ program using fork() command where parent and child execute same program and same code.
4. Write a C/C++ program to print file details including owner access permissions ,file access time, where file name is given as argument.
5. Write a C/C++ program to print its process id, parent process id , and group id.
6. . Write a C/C++ program to implement preemptive Shortest Job First CPU scheduling algorithm

B. Answer any four questions: 4 x2 = 8

[ONLINE Viva-Voce : Record the audio of your answers as like .mp3 format]

1. What is the system call?
2. What is fork() ?
3. Difference between ready queue & job queue.
4. What id PPID?
5. Difference between short term scheduler & dispatcher.
