Panskura Banamali College (Autonomous)

B.Sc.(H) 3rd Semester Examination 2022 (Online mode)

Subject : Computer Science Paper: CC7T

Paper Name : Computer Networks

F.M. : 40 Time : 2 Hours

Answer any four questions : 4×10=40

1. Define computer network. Write down its applications. What is IP address? 2+6+2=10
2. Briefly explain the effectiveness of data communication. Assume six devices are arranged in a mesh topology. How many cables are needed ? How many ports are needed for each device ? Distinguish between analog digital signals. 4+2+2+2=10
3. Explain the data communication system components in brief. Write down the function of bridge and repeater. 6+4=10
4. Briefly explain the direction of data flow with examples and diagrams. Describe two type of connection or line configuration of computer network. 6+4=10
5. Define topology. Explain star , ring and bus topology .Write down difference between LAN and WAN. 2+6+2=10.
6. Write down the function of each layer of OSI model. A signal has a bandwidth of 20 Hz. The highest frequency is 60 Hz. What is the lowest frequency ? 8+2=10
