Panskura Banamali College (Autonomous)

B.Sc.(H) 5th Semester Examination 2022 (Online mode)

Subject : Computer Science Paper: DSE1T

Paper Name : Microprocessor

F.M. : 40 Time : 2 Hours

Answer any four questions: 4×10=40

1. a) Explain the function of program counter.

   b) Explain the various steps involved in program.

   (5+5)

2. Define the following terms 5×2=10

   i) Accumulator

   ii) XCHG

   iii) ALE

   iv) Interrupts.

   v) DMA

3. a) Differentiate between I/O mapped & memory mapped I/O

   b) Draw the pin diagram of 8085 & explain meaning of various.

   (5+5)

4. a) What is flag register of 8085. Explain all flag.

   b) What is DMA data transfer scheme? Explain in details.

   (5+5)

5. (a) Difference between absolute and partial decoding in 8085 Microprocessor.

   (b) Describe details of given instruction in 8085 microprocessors

   NOP,HLT,STC,RNC,XCHG,JMP, RRC 3+7=10

6. (a) Write an A.L.P. in 8085 to Subtract two 8-bit number using 2's complement method.
   (b) Draw the timing diagram of MVI B,8bit number.
   (c) In what condition MPU communicate peripheral for data transfer?

   4+4+2=10
