Panskura Banamali College (Autonomous)

B.Sc.(H) 4th Semester Examination -2021 (Online Mode)

Subject: Computer Science **Paper: GE4T**

Paper Name: Introduction to Programming

F.M.: 40 **Time : 2 Hours**

Answer any four questions : **4x10=40**

1. a) What is Conditional or ternary operator? What is comma and size of operator? Describe with example
   b) what is the basic difference between & and &&?
   c) What is copyconstructor? Write a program to demonstrate coy constructer. 4+2+4=10

2. Differentiate the following : (a) break and continue (b) While and do-while statement. (5+5)

3. Define Program. Write and explain various steps involved in development of the program. (3+7)

4. Write down difference between compiler and interpreter. 10

5. Discuss various types of operators. Discuss the need of flowchart. Write data types available in C. (2+2+6)

6. a) What is static keyword in c++?What is inheritance? State the characteristics of the inheritance?
   b) Difference(any two):
   i) break and exit ii) i++ and ++i
   iii) class and structure (2+2+2)+(2+2)=10
